Stock Compensation	302,000	422,000
Adjusted EBITDA	\$ 2,620,000	\$ 1,486,000

*All Amounts are Unaudited.*

#### 2024 Business Outlook and Items of Note:

- While the predictability of performance on large contracts and product deliveries remains difficult, Air Industries reaffirms its target of achieving at least \$50.0 million in net sales for fiscal 2024, with Adjusted EBITDA expected to significantly surpass 2023 levels.
- The Company's backlog of undelivered, fully-funded customer orders surpassed \$105 million as of September 30, 2024, marking a 4% increase since June 30, 2024, and a 22% rise since January 1, 2023.
- The Company's book-to-bill ratio, which is bookings of new business divided by net sales increased to nearly 1.40x for the trailing twelve months ended September 30, 2024.
- As of September 30, 2024, total debt was \$24,976,000, up \$1,666,000 or 7.1% from December 31, 2023. The Company is in compliance with its loan covenants and expects to remain in compliance for the balance of the year.

#### CEO Commentary

Lou Melluzzo, CEO of Air Industries commented, "Our results for the third quarter and year-to-date reflect continued improvement compared to the prior year. We expect this positive trend to continue in the foreseeable future. Our success is driven by executing our strategy including a sharp focus on:

1. *Portfolio Expansion* – Deepening our engagement with existing customers.
2. *Aftermarket Strategy* – Expanding our presence in the Maintenance, Repair and Overhaul sector, where profit margins are often higher.
3. *Industry Outreach* – Increasing our visibility and reach with new customers.

"These efforts have strengthened our book-to-bill ratio and driven backlog growth across every quarter in 2023 and 2024. While supply chain challenges and on-boarding of new customers have caused some fluctuations, we remain focused on achieving profitable growth."

#### Conference Call Information

As previously announced, the Company will host a conference call to discuss financial results as well as its 2024 business outlook. The call is scheduled for November 14, 2024, at 4:30 PM Eastern Time.

The conference call number is 877-524-8416 and will be made available for replay at [www.airindustriestgroup.com](http://www.airindustriestgroup.com).

## **ABOUT AIR INDUSTRIES GROUP**

Air Industries Group is a leading manufacturer of precision components and assemblies for large aerospace and defense prime contractors. Its products include landing gears, flight controls, engine mounts and components for aircraft jet engines, ground turbines and other complex machines. Whether it is a small individual component or complete assembly, its high quality and extremely reliable products are used in mission critical operations that are essential for the safety of military personnel and civilians.

## **FORWARD LOOKING STATEMENTS**

Certain matters discussed in this press release are 'forward-looking statements' intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. In particular, the Company's statements regarding trends in the marketplace, future revenues, earnings and Adjusted EBITDA, the ability to realize firm backlog and projected backlog, cost cutting measures, potential future results and acquisitions, are examples of such forward-looking statements. The forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the timing of projects due to variability in size, scope and duration, the inherent discrepancy in actual results from estimates, projections and forecasts made by management, regulatory delays, changes in government funding and budgets, and other factors, including general economic conditions, not within the Company's control. The factors discussed herein and expressed from time to time in the Company's filings with the Securities and Exchange Commission could cause actual results and developments to be materially different from those expressed in or implied by such statements. The forward-looking statements are made only as of the date of this press release and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

## **NON-GAAP FINANCIAL MEASURES**

The Company uses Adjusted EBITDA, a Non-GAAP financial measure as defined by the SEC, as a supplemental profitability measure because management finds it useful to understand and evaluate results, excluding the impact of non-cash depreciation and amortization charges, stock based compensation expenses, and nonrecurring expenses and outlays, prior to consideration of the impact of other potential sources and uses of cash, such as working capital items. This calculation may differ in method of calculation from similarly titled measures used by other companies and may be different than the EBITDA calculation used by our lenders for purposes of determining compliance with our financial covenants. This Non-GAAP measure may have limitations when understanding performance as it excludes the financial impact of transactions such as interest expense necessary to conduct the Company's business and therefore are not intended to be an alternative to financial measure prepared in accordance with GAAP. The Company has not quantitatively reconciled its forward looking Adjusted EBITDA target to the most directly comparable GAAP measure because items such as amortization of stock-based compensation and interest expense, which are specific items that impact these measures, have not yet occurred, are out of the Company's control, or cannot be predicted. For example, quantification of stock-based compensation is not possible as it requires inputs such as future grants and stock prices which are not currently ascertainable.
