NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

1- SIGNIFICANT ACCOUNTING POLICIES

BACKGROUND OF COMPANY

Sigma Metals, Inc. ("The Company") is a stocking aircraft metals warehouse with value added capability. The Company also services the critical needs of aircraft manufacturers and the major airlines. The Company is located in Deer Park, New York. Its customer base consists of both foreign and domestic Corporations.

CASH & CASH EQUIVALENTS

Cash and cash equivalents include all highly liquid debt instruments with an original maturity of three month or less. Cash consists of aggregate cash balances in the Company's bank accounts and cash equivalents consist primarily of money market accounts.

ACCOUNTS RECEIVABLE

Accounts receivable are presented at face value, net of the allowance for doubtful accounts. The allowances for doubtful accounts are established through provisions charged against income and are maintained at a level believed adequate by management to absorb estimated bad debts based on current economic conditions. Management considers all accounts to be collectible and, therefore, has not established a provision for uncollectible accounts.

CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to concentrations of credit risk consist of trade accounts receivable. The Company grants credits to its customers, which are located in and out of the United States. The Company does have foreign sales, but they are primarily with large corporations that the Company has done business with for a number of years. The majority of these transactions are insured.

INVENTORY

Inventories are stated at the lower of cost (first-in, first-out) or market.

PROPERTY AND EQUIPMENT

Property and equipment are carried at cost less accumulated depreciation and amortization. The Company maintains a policy to capitalize all property and equipment purchases in excess of \$1,000. Expenditures for repairs and improvements in excess of \$1,000 that add to the productive capacity or extend the useful life of an asset are capitalized. Repair and maintenance charges are expensed as incurred. Property under a capital lease is capitalized and amortized over the lease terms. Upon disposition, the cost and related accumulated depreciation are removed from the accounts and any related gain or loss is reflected in earnings. Depreciation on property and equipment is calculated on the straight-line method over the estimated useful lives of the assets.

PROPERTY AND EQUIPMENT - (Continued)

Depreciation and Amortization are provided by charges to operations over the estimated useful lives, principally on the straight-line method. The estimated useful lives are:

| | |
|---|------------|
| Tools | 5 Years |
| Furniture, Fixtures and Office Equipment | 5 Years |
| Transportation Equipment | 5 Years |
| Machinery and Equipment | 7 Years |
| Leasehold Improvements | 3-15 Years |

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews long-lived assets for impairment at the facility level annually or when events or circumstances indicate that the carrying value of such assets may not be fully recoverable. Impairment is evaluated based on the sum of undiscounted estimated future cash flows expected to result from use of the assets compared to their carrying value. If impairment is recognized, the carrying value of the impaired asset is reduced to their fair value, based on discounted estimated future cash flows.

FINANCE COSTS

Costs connected with obtaining and executing debt arrangements are capitalized and amortized on the straight-line basis over the term of the related debt.

REVENUE RECOGNITION

The Company generally recognizes revenue when products are shipped and the customer takes ownership and assumes risk of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists, and the sales price is fixed or determinable.

EXPENSES

Selling, general, and administrative costs are charged to expense as incurred.

USE OF ESTIMATES

In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. The more significant management estimates are the useful lives of property and equipment, provisions for inventory obsolescence, unamortized finance costs, accrued expenses, and various contingencies. Actual results could differ from those estimates. Changes in facts and circumstances may result in revised estimates, which are recorded in the period in which they become known.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company has estimated the fair value of financial instruments using available market information and other valuation methodologies in accordance with Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments."

FAIR VALUE OF FINANCIAL INSTRUMENTS - (Continued)

Management of the Company believes that the fair value of financial instruments, consisting of cash, accounts receivable, accounts payable and accrued liabilities, approximates carrying value due to the immediate or short-term maturity associated with these instruments and that the notes payable is carried at fair value in that it carries interest rates that are comparable to similar instruments with similar maturities.

INCOME TAXES

The Company has elected to be taxed as a Small Business Corporation and, consequently, no Federal tax liability is reflected on the Comparative Statements of Income and Retained Earnings.

2- INVENTORY

Inventory consists primarily of sheet metal and is considered all raw materials.
